

# Universe of Galaxies 2004: Final grades

---

The final grade reflects not only the result of the exam, but also student's performance during the course, in particular his remarks, questions, and participation in discussions in the classroom.

"Top" means the top grade As there are here students from GU, CTH, and Erasmus/Socrates, the actual "legal" grades and points registered with the Students Office have three different codings, according to rules of the three different grading systems at GU, CTH, and E/S. Please, ask the Student Office for your "legal" grade.

The student indicated by ???? has not yet sent me a file with his essay. His presentation was excellent, and I gave him the top grade, but I will put his on the list when he sends me the file (or an email estimating when he will be ready to send the file.)

Four more students take exam in a near future.
